RE: 2025 Road Ban Notification

Effective March 03, 2025 at 10:00am, traffic over one ton will be restricted to travel during **non-road ban hours (10pm – 10am)**. **All essential traffic over one ton travelling during road ban hours (10am – 10pm) will require an “Essential Load Permit”.** **To obtain a permit please see instructions listed below.**

Depending on weather and road conditions, additional vehicle weight restrictions and road closures may be implemented on short notice. **When 75% weight restrictions are imposed, no traffic will be permitted to travel on Paramount Roads without an approved “Essential Load Permit”.**

Paramount Resources Ltd. defines essential and non-essential trafficas:

Essential Traffic (Heavy Traffic Over One Ton)	Non – Essential Traffic (includes, but is not limited to)
Camp Supplies	Construction/Pipeline/Facility Operations
Emergency Traffic	Drilling Operations
Production Fluid Hauling	Completions Operations
Crew Buses	Forestry Operations

**The classification of traffic not outlined on this list will be determined by Paramount Resources Ltd.*

Pick-up trucks and service trucks equivalent to a Dodge 3500-5500 or Ford 350-550 are permitted access during road ban hours. **The addition of a trailer changes the status and will not meet requirements for pick-ups noted above.**

Essential Load Permits will be charged a \$500 fee per load. This fee will cover additional road repair and maintenance expenses incurred over this period. These fees are separate and in addition to the road use fees outlined on the Grantee’s Road Use Addendum. The fee will be charged thirty (30) days or less from the date of permit issuance. Payment for fee(s) must be received within thirty (30) days of invoicing for continued and uninterrupted use of the road during break-up conditions.

Process to Obtain Approval for Essential Traffic

- 1) Submit an Essential Load Permit Request at <https://www.paramountres.com/contact/paramount-roads/>
- 2) Paramount will review the request and issue a permit. Please ensure operators have access to a copy of the permit in their vehicle. **This will be required to proceed if stopped by road security on all Paramount roads.**

Please be aware that repairs for road damages resulting from unapproved travel or continued use in wet/non-frozen conditions will be the responsibility of the user and may result in loss of road use privileges, fines and/or charges to user for damage repair.

ESSENTIAL TRAFFIC DURING ROAD BAN HOURS RULES OF THE ROAD

Essential traffic during spring break-up is expected to comply with the below listed rules, *in addition to “Paramount Rules of the Road”* which can be found at: <https://www.paramountres.com/contact/paramount-roads/>

Road Ban Permits: For approved essential traffic during road ban hours, operators must carry a Road Ban Permit within the vehicle. *Roads will be monitored on a regular basis. Any vehicle found without a permit may result in fines or having the vehicle turn around.*

Vehicle Loads: Load information verification is the operator’s responsibility and will be requested by security.

Employee Etiquette: Disrespect towards security or check point personnel will not be tolerated and depending on the seriousness of the infraction(s) may result in Road Use Agreement suspension or termination.

Weather Conditions: In cases where a restricted operations period is lifted but sudden extreme weather conditions develop, Paramount may reinstate weight-restricted bans without notice; the (minimum) \$500 FEE PER LOAD for all essential vehicles would then resume, and restricted hours would be enforced for all non-essential vehicles.

Avoiding Check Point/Security: Any vehicles caught intentionally avoiding the security check point will be subject to a \$5,000 fine regardless of weight and loss of road use privileges may result.

Overweight Loads: Trucks or equipment that are over the posted allowable axle weight as determined by Paramount Resources Ltd. will be fined \$5,000 per violation and loss of road use privileges may result.

North Iosegun Road: KM 13 pullout, chain-up areas are not to be used as a parking lot. Unattended trucks, trailers and equipment may be towed at owner’s expense and/or a \$5,000 fine levied. Storage fees may also apply.

Notice: It is the Road Use Agreement Grantee’s responsibility to notify all field staff, contractors, engineers, and other employees covered and operating under your road use agreement with Paramount as to the contents of this notice.

Please refer to Paramount Resources Ltd. website <http://www.paramountres.com/contact-us/Paramount-Roads> for road updates and notices. If further information is required, contact Kaybob area Representative - Pat Didyk (780) 779-3969 for other enquiries during business hours.

Your cooperation in limiting damage to Paramount roads during the spring break-up period and beyond is greatly appreciated. If there are any questions regarding road use agreements or if you require an agreement, please contact the Road Use department roadban@paramountres.com.
